---

I am a Computer Systems Engineering student with strong expertise in software development. I specialize in C# with ASP.NET, PHP with Laravel, Java, Python, SQL, NoSQL, HTML, and React.

Work Experience

Junior Software Developer – CachorroSoft

March 15, 2024 – Present

- Contribute to the ongoing development of a web application for client payment management and project administration using Laravel, Livewire, and TailwindCSS. Actively participate in requirement gathering through user stories (HU) and help implement key features such as an internal chat and Kanban board to streamline workflows, automate processes, and centralize information.

Projects

Inventory and Distribution System – Frutos del Terraba

January 17, 2025 – March 6, 2025

- Designed and developed an inventory and distribution management system using C# and .NET, streamlining order processing and truck-based delivery. The solution automated dispatch operations, reduced human error, and enhanced efficiency. Partnered with stakeholders to define the project scope and key features.

Financial Management System - (Personal Project)

- Developed a web application using Laravel that enables users to efficiently track income and expenses, monitor total balances, and set financial goals. The system sends automated notifications when goals are met or missed, enhancing personal finance management by delivering actionable insights to support better financial decision-making.

Educational Background

Bachelor's Degree in Computer Systems Engineering

Universidad Fidélitas
Ene 2023 - Oct 2025

Mid-Level Technician in Executive for Customer Service

CTP Dulce Nombre
2022

Skills

Technical Skills

- Programming Languages: C# (ASP.NET), Java, PHP (Laravel), Python, JavaScript (React)
- Databases: SQL, NoSQL
- Data Analytics: Power BI, Google Analytics
- Project Management: User story development, project documentation, client meetings

Languages

- Spanish
- English

Soft Skills

- Leadership & teamwork
- Strong communication skills
- Problem-solving
- Proactivity & Initiative

Certification

- Cisco: CCNAv7: Switching, Routing, and Wireless Essentials
- ScrumStudy: Scrum Fundamentals

Additional Information

- I completed an internship at Align Technology as a 3D Dental Treatment Designer (2022).
